

Innovative LED Light Panels

Raku Corporation is pleased to introduce a series of worldwide patented **LED light panels** for indoor and outdoor applications including: Store fixtures, promotional light boxes, restaurant menu boards, signage applications and much more. Using the world's most powerful LED lights embedded into optic acrylic sheets capable of producing 1500-3000 lumens, our panels produce a powerful and evenly lit pure white light with a 70,000-100,000 hour life. With manufacturing capabilities located in Markham, Ontario, Raku provides customers with fast delivery of custom sized panels, local customer support and a standard 2 year product warranty.

For more information please call **(905)479-0175** or visit **www.raku-corp.com**.
