

Innovative Low Cost Business Snap Frames

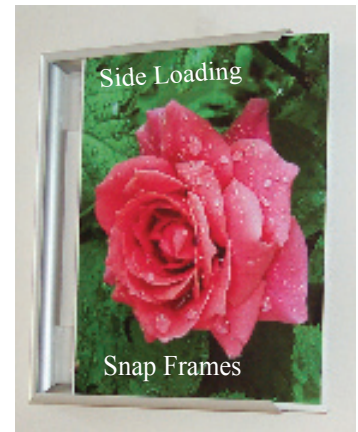

Raku Corporation is pleased to announce the release of our **patented snap frames** featuring a slim design, rugged aluminum construction and anodized finish. Artwork can be front loaded or loaded from any side for instant poster insertion or removal.

Raku snap frames feature a revolutionary design and can be easily assembled or disassembled without tools and can be either desktop or wall mounted. Ideal for all your framing needs including prints, photos, diplomas and business posters. Frame colours include silver, gold, black and wood grain and can be built to any size up to 48"x72" as specified by customers. With a manufacturing facility located in Markham, Ontario, Raku has the capability of producing hundreds or snap frames each day in order to ensure fast delivery.
